Chair

TERRACOTA

Precast Concrete

Low maintenance

ISO 9001 | ISO 50001 | ISO 14001 | ISO 45001

Designer Bench measuring 2000 x 600 x 450 mm, made of high-strength, layered precast concrete, with a monolithic rectangular body and gently rounded edges. The visible surfaces feature a continuous layered texture, formed by horizontal layers of fine, irregular relief, creating a textured finish inspired by handcrafted ceramics. The exterior has a light, layered finish, while the polished top surface is finished in a two-tone terracotta, integrated into the piece, providing chromatic contrast, visual warmth, and enhanced user comfort. Bench is designed for high-traffic urban spaces, offering high durability against the elements, low maintenance, and high mechanical resistance.
