Pole
Essentials

ICCLXXES2

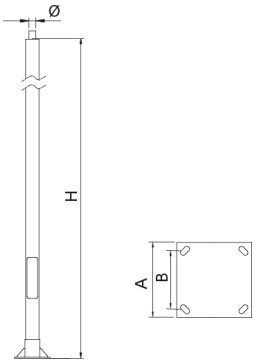

By Ramón Úbeda - Otto Canalda © ® BENITO

AENOR EN40

Cylindrical Pole manufactured from hot-dip galvanized S-235 JR steel.
Standard finish in micro-textured black RAL 9005.
Total Pole height: 4 to 6 meters, with top end for TOP Ø100 fixing Essentials (IRNOR or IRDEC). The base incorporates a reinforcing ring and four brackets, providing greater rigidity and stability. A simple and functional design, geared towards contemporary urban lighting solutions where durability and minimalist integration into the environment are paramount.
Optional:
– Anti-urine treatment at the base.
- Finished in RAL paint of your choice.
