Pole
Siena
ICS40

AENOR EN40

Classic style Pole made from a single piece of S-235 JR galvanized steel. Standard finish in micro-textured black.
Total height of the Pole : 4 meters, with a 60 mm diameter top. The base incorporates a reinforcing ring and 4 brackets, providing greater rigidity and stability. The Siena Pole is specially designed to combine with the Siena luminaire, forming an elegant, modern street light set with a distinctly decorative character, ideal for areas with a classic style.
Optional:
– Anti-urine treatment at the base.
– Finished in RAL paint of your choice.
