Fence ENSANCHE, total dimensions (length x height) 1790 x 1195 mm, made of steel (treated with the Ferrus process, the triple-layer protection for iron, which guarantees optimal corrosion resistance). Prepared for anchoring in concrete (not included).

Steel with FERRUS treatment: an iron protection process that ensures optimal corrosion resistance. The Ferrus treatment consists of three layers applied after cleaning all dirt and impurities using shot blasting, and it involves an electrolytic bath followed by an epoxy primer and a final coating of polyester powder paint.
