Fence

Bardal 200

Recicled
Product

PP 5

BARDAL pedestrian Fence , overall dimensions (length x height) 2000 x 1021 mm, yellow, made of high-density polypropylene, is resistant, stable, and easy to transport. Ideal for marking and maintaining distances in public spaces, events, pedestrian control, construction sites, temporary excavations, or road construction areas. 100% recyclable. Resistant to low temperatures and UV rays. Non-deformable: high resistance to compression and tension. Non-toxic. Stackable. Modular and stable: easy to handle, adapts to any type of terrain, and requires no maintenance.

Polypropylene (PP) for outdoor use, UV-stabilised for prolonged exposure to weathering. Lightweight and rigid material, with good resistance to impacts, moisture, and most atmospheric agents and commonly used chemicals. Low maintenance and easy to clean. Through-coloured (as selected) for improved finish retention outdoors.
